

Ilija Milošević

JavaScript Engineer

JavaScript Engineer with 8 years of experience building performant, user-focused interfaces using TypeScript, React and Node.js. I've led frontend initiatives in fast-paced teams, optimizing Core Web Vitals and delivering scalable, production-ready features for millions of users. I enjoy designing intuitive UI and maintaining clean, reusable code, with a focus on measurable product impact

Experience

Avito

march 2022 – april 2025

Improved cart LCP (+17%) and CLS (+5%) with SSR using Node.JS; built promotions page with infinite scroll and a cross-platform checkout using React, Redux and TypeScript

Alfa-Bank

march 2019 – june 2021

Led a team of 2, built a React tariff picker (-90% selection time) and a form builder halving code size and release time, expanded the design system with advanced patterns

LitRes

aug 2017 – march 2019

Built a lightweight map widget (-40%), migrated the reading app to a new API, delivered filterable catalog pages, and promoted a React-based design system

Skills

Languages & Frameworks

JavaScript (ES6+), TypeScript, React, Redux, Node.js, HTML5, CSS3, CSS Modules, CSS-in-JS, Atomic CSS

Frontend Architecture

SSR, Design Systems, Compound Components, React Context API, State Management

Performance Optimization

Core Web Vitals (LCP, CLS), JSON Payload Reduction, Bundle Size Reduction

Tools & Workflow

Git, Agile Methodologies, Testing (Jest, Testing Library), REST APIs

Product & Collaboration

UX/UI Design, Cross-platform Development (desktop/mobile), Team Leadership, Backlog Prioritization

Education

National Research Nuclear University MEPhI

Bachelor's degree, Applied Computer Science

Languages

English: Fluent (C1)
Russian: Native
Serbian: Intermediate
